ILLUMINATING BY DESIGN

Tube \varnothing 30mm

Cap \varnothing 34mm

Light output 360°

Tubular Diffused IP64 LED light, grey/black end caps.

The 24v RD Twin Stick IP64 is a robust LED diffused lit tube with 360° light output. The slim and robust stick can be suspended horizontally, vertically or at any angle, as well as surface mounted.

The LED Stick-Lite is an incredibly versatile linear lighting solution and will operate from a 24v constant voltage driver that can be dimmable.
