

# 24v RD Twin Stick LED

Suspended/Surface

**encapsulite**

ILLUMINATING BY DESIGN

Tube  $\varnothing$  30mm

Cap  $\varnothing$  34mm

Light output 360°

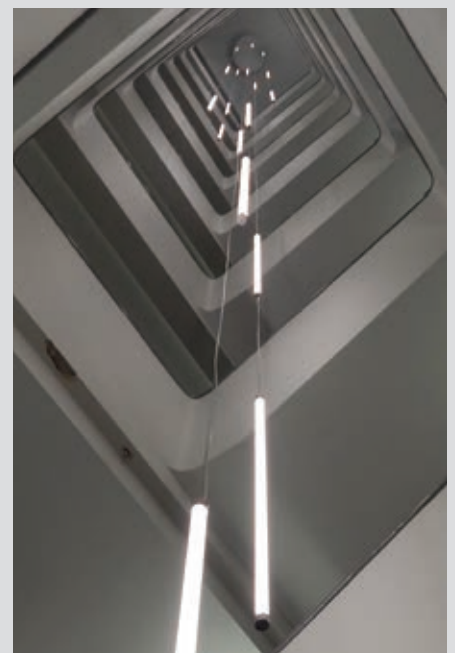

## Tubular diffused LED light, silver/black end caps.

The 24v RD Twin Stick is a robust LED diffused lit tube now improved with the latest available LED chip and has no shadowing to give a cleaner 360° light output. The slim and robust stick can be suspended horizontally, vertically or at any angle, as well as surface mounted.

The 24v RD Twin Stick is an incredibly versatile linear lighting solution and will operate from a 24v constant voltage driver and can be dimmable.

Suitable for almost any dry interior application.
