ILLUMINATING BY DESIGN

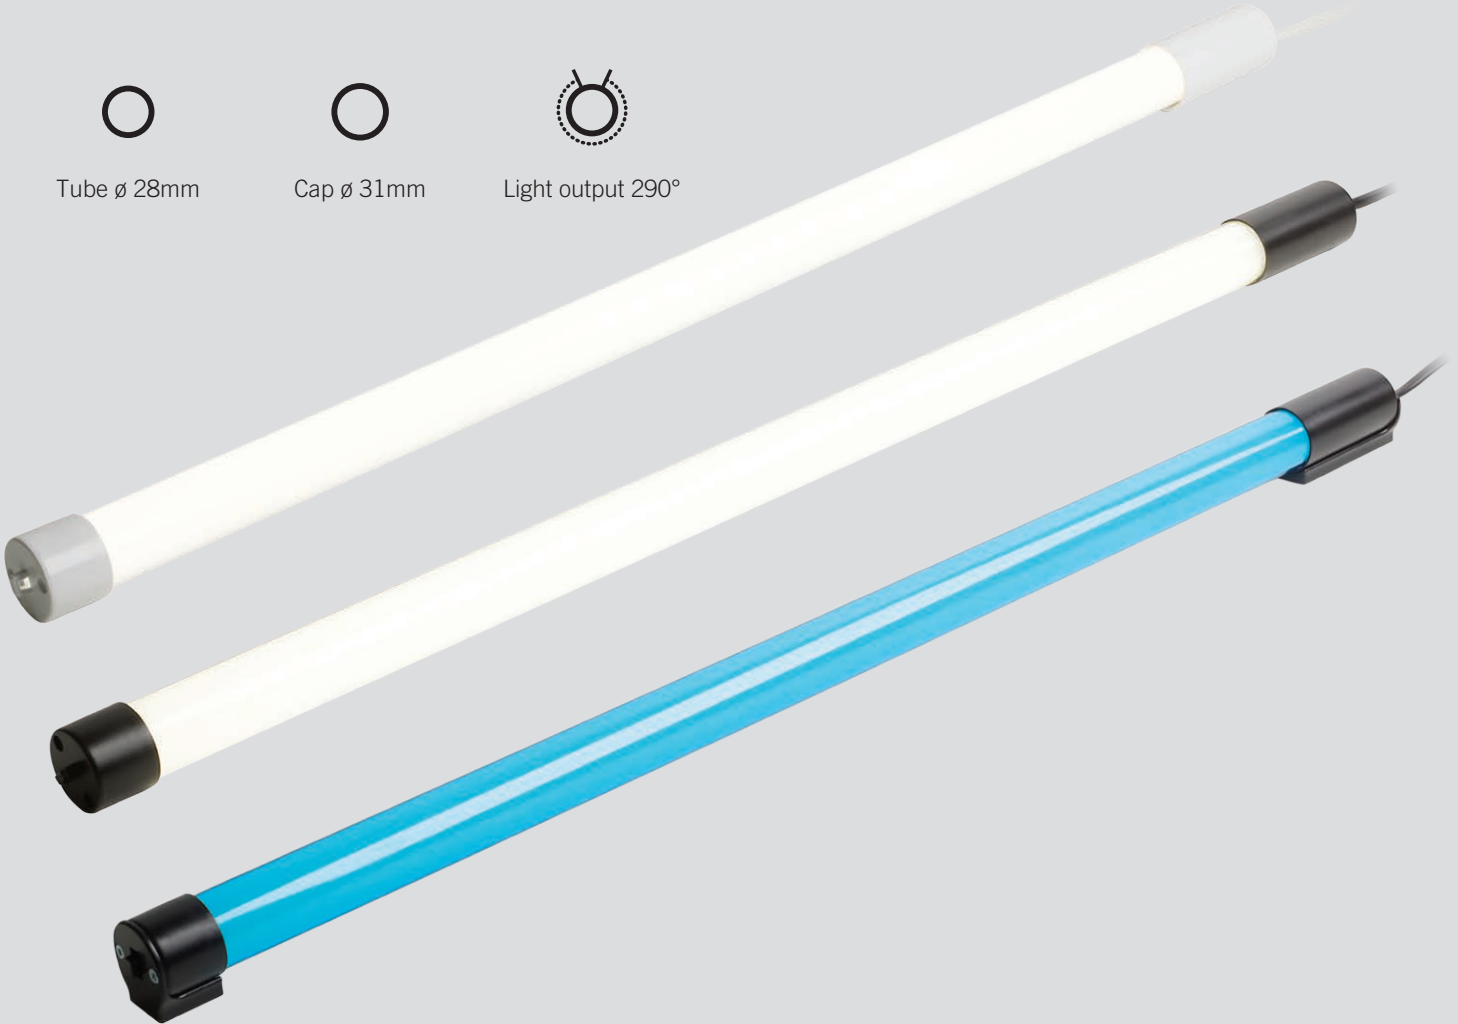

Tube \varnothing 28mm

Cap \varnothing 31mm

Light output 290°

90° cable exit optional.
In line cable exit standard.

Tubular diffused LED light, white/black end caps.

The LED Stick-Lite is a robust, surface mounted, LED diffused lit tube with electronics incorporated within the cable entry end cap (60mm length). The slim tube offers an approximate 290° distribution of light and seamlessly incorporates any one of 9 colours to create both dramatic and subtle effects.

The LED Stick-Lite is an incredibly versatile linear lighting solution and will operate from 100v-240v AC Non dimmable.

Only 28mm diameter (31mm \varnothing end caps) the LED Stick-Lite makes use of efficient LED and miniature driver technology.

Suitable for almost any dry interior application.
