

# LED STICK-LITE

## INTEGRAL DRIVER

## Tubular diffused LED light, white/black end caps.

### A ROBUST, SURFACE MOUNTED, LED DIFFUSED LIT TUBE.

The LED Stick-Lite is a robust, surface mounted, LED diffused lit tube with electronics incorporated within the cable entry end cap (60mm length). The slim tube offers an approximate 290° distribution of light and seamlessly incorporates any one of 9 colours to create both dramatic and subtle effects.

An incredibly versatile linear lighting solution operating from 100v-240v AC non dimmable.

Only 28mm diameter (31mm ø end caps) the LED Stick-Lite makes use of efficient LED and miniature driver technology.

Suitable for almost any dry interior application.
